

Unaudited population dynamics

R: uniform errors

S: structured errors

$a = 0.75$, $b = 0.50$, $L = 10$; $\theta(0) = 0$; $dt = 0.0025$

Targeted auditing: initial-update effect

$a = 0.75$ $b = 0.50$ $\theta_0 = 0$ $\eta = 0.10$
